Safety Needle Holder

KBMED Safety Needle Holder is applied in the clinical venous sampling which is achieved by blood collection needles to secure the operators

SNH01

SNH02

Needle Holder

NH01

- KBMED single-use holders are compatible with all Vacutainer tubes and blood collection needles

NH02

- The KBMED Blood Transfer holder is used for needleless specimen transfer from a syringe to an evacuated tube or blood culture bottle.

NH03

- The KBMED Luer Lock Access holder is compatible with female luer connections or IV ports designed for luer access.

Sharp Container

The Sharp Containers are used for disposal of hospital waste and characterized by an elevated level of safety and reliability. The material used for production guarantee the solidity, the hermetic closure, and the high resistance to shock and puncture.

Accessories

Tourniquet

- Sizes: 1"x18"x0.025"/1"x18"x0.029"/etc.
- Latex free, Blue/Orange/Green/Yellow/Pink

Adhesive bandage

- Sizes: 72x19mm/76x25mm/Dia. 25mm/etc.
- Sizes can be customized

Alcohol Prep Pads

- Sizes: 3x6cm/ 4x8cm

Paper Tape

- Width: 1.25cm/2.5cm/5cm/7.5cm/10cm

Self-adhesive bandage

- Width: 2.5cm/5cm/7.5cm/10cm/15cm

Cotton ball

- Gram weight: 0.3-4 g

Specimen Collection

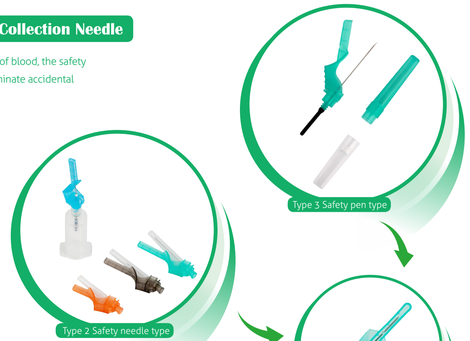
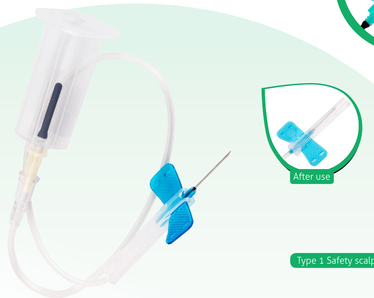
Safety Blood Collection Needle

It is used for aspiration of blood, the safety mechanism help to eliminate accidental needle stick injuries.

Feature

- Protection against needle injuries
- Single hand activation possible

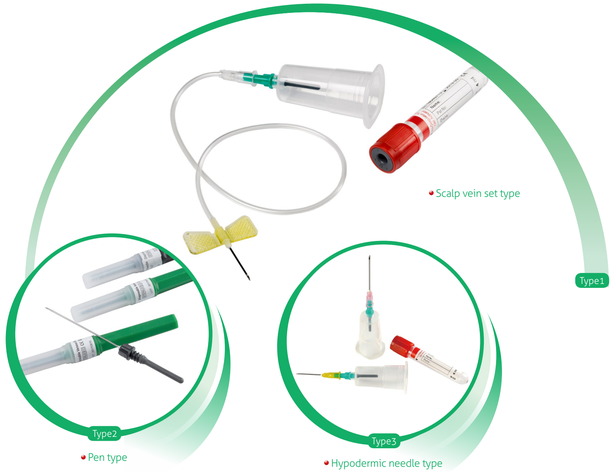




Type 1 Safety scalp vein set type

Blood Collection Needle

It is used for aspiration of blood, the safety mechanism help to eliminate accidental needle stick injuries.



- Pen type
- Hypodermic needle type

Safety Lancet

It is used in blood collection sampling and help eliminate accidental needlestick injuries.

Feature

- Needle is fully shielded before and after use
- Cannot be reused
- Ultra sharp tri-bevel needle, high speed penetration
- Multiple depth selection with color coding
